ABOUT THE WEBINAR:

Combatting coronavirus COVID-19 pandemic is the greatest challenge we have faced since WORLD WAR II. In the current scenario of its outbreak each individual is at risk to be infected. Zoonosis is not an uncommon phenomenon in the Biosphere. Are the bats or other animals responsible for transmission of the disease? Are the people suffering from very common diseases like diabetes, more susceptible to this virus? Are we going to face a new era of mass extinction? Are human beings marching towards self-destruction? Before more negative thoughts darken our existence, rays of knowledge should enlighten and rekindle the hope in our mind. Keeping this in mind, the Department of Zoology in association with IQAC of Asansol Girls' College, with honourable speakers is going to organize an international webinar on Corona Pandemic-searching hopes and responsibilities to rejuvenate the mind with photons of positivity.

About the college:

Asansol Girls' College, a prestigious college in the industrial belt of Asansol, Paschim Bardhaman district, West Bengal, India. It offers undergraduate courses in arts, commerce and sciences. It came into existence in 1950 mainly as a result of untiring effort of Dr. Lalit Mohan Sen, the then CSO, mines board of health and his worthy consort Smt. Kamala Sen. Initially, the College was affiliated to the University of Calcutta. After Burdwan University started it became affiliated with that university and now, the college has been affiliated to Kazi Nazrul University. During the difficult years of its adolescence, the college was fortunate to have Dr. Anjali Roy as its principal. This is a premier college for highest academic standards, different educational programs, grand faculty, and various co-curricular activities and modern infrastructures. The College provides hostel facility to the students from distant places. There are two hostels - Unit I (Anjali) and Unit - II (Nivedita). Today, it has become high spirited institution for learning.
